SUMMARY

Results-driven Flutter Developer with 1+ year of experience delivering production-ready mobile apps with clean architecture, efficient API integrations, and high-performance UI. Strong in Flutter/Dart, Firebase, REST/GraphQL APIs, and CI/CD automation. Adept at translating Figma designs into polished apps and collaborating in Agile teams. Successfully deployed apps to Play Store and App Store while improving performance, reducing bugs, and enhancing user experience.

TECHNICAL SKILLS

- **Languages** : Dart, JavaScript
- **Frameworks** : Flutter, Node.js
- **Tools** : Android Studio, Xcode, Git, GitLab, GitHub, Figma, CI/CD Pipelines
- **Database** : MySQL, PostgreSQL, Firebase
- **Cloud & APIs** : REST APIs, GraphQL, Firebase Authentication, Google Cloud Platform (GCP)
- **Soft Skills** : Good Communication, Problem-Solving, Time Management, Collaboration

WORK EXPERIENCE

Software Developer

Spin Info Solutions Private Limited

Aug 2024 - Aug 2025
Pondicherry, India

- Developed client-facing mobile applications using Flutter and Dart, integrating payment gateways and push notifications; reduced development time by **30%** through reusable UI components and modular architecture.
- Collaborated with designers, backend engineers, and product teams in Agile sprints, contributing to feature planning, Figma-to-Flutter UI implementation, API integration, and code reviews using GitHub and Jira.
- Improved app performance and scalability by **25%** through optimized API handling, clean architecture patterns, and efficient state management.

Software Developer Intern

Spin Info Solutions Private Limited

Mar 2024 - Aug 2024
Pondicherry, India

- Built responsive and high-performance mobile applications using Flutter, handling end-to-end development from UI implementation to deployment.
- Collaborated with senior developers to improve app features, fix bugs, and enhance overall stability and user experience.

EDUCATION

Sri Venkateshwaraa College Of Engineering And Technology

Bachelor of Technology (B.Tech), Computer Science and Engineering

Sep 2019 - Aug 2023
CGPA - 8.5

Crescent Higher Secondary School

Higher Secondary Certificate (HSC)

Jun 2017 - Mar 2019

PROJECTS

Restaurant POS Software

Technologies: Flutter, Figma, Node.js, PostgreSQL, GitLab

- Developed full-featured POS and Inventory applications with e-commerce style workflows including order management, billing, payments, and push notifications.
- Designed intuitive user interfaces in Figma and implemented responsive UI in Flutter, improving service speed by **20%**.
- Integrated GitLab CI/CD pipelines to automate builds and deployments, reducing deployment time by **40%**.

Inventory Management Software

Technologies: Flutter, Figma, Node.js, PostgreSQL, GitLab

- Built a scalable inventory management solution with role-based access and real-time tracking and secure data handling.
- Delivered critical features including **low-stock alerts, audit logs, and analytic dashboards**, improving operational efficiency by **30%**.
