SUMMARY

Flutter Developer with 2+ years of professional experience designing, developing, and deploying scalable cross-platform mobile applications using Flutter and Dart. Specialized in building production-ready Android and iOS applications with Clean Architecture, Offline-First Architecture, GetX state management, REST API integration, and CI/CD automation. Proven expertise in delivering high-performance, maintainable, and user-centric mobile solutions through reusable architectures, secure data handling, and seamless online/offline synchronization while collaborating effectively within Agile teams.

TECHNICAL SKILLS

- **Languages** : Dart, JavaScript
- **Frameworks** : Flutter, Node.js
- **Database** : MySQL, PostgreSQL, Firebase, Hive
- **Backend & APIs** : REST APIs, GraphQL, gRPC, Firebase Authentication, Google Cloud Platform (GCP)
- **Tools** : Git, GitLab, GitHub, Android Studio, Xcode, Figma, CI/CD Pipelines

WORK EXPERIENCE

UI/UX Developer

Tesseractiq

Nov 2025 – Present

Remote

- Developed and deployed scalable Flutter applications from Figma designs using Clean Architecture and GetX, building reusable UI components that improved development efficiency and maintained a consistent user interface.
- Optimized API communication, widget rendering, and GetX state management, improving application performance by 25% while enhancing UI responsiveness.

Software Developer

Spin Info Solutions Private Limited

Aug 2024 – Aug 2025

Pondicherry, India

- Developed client-facing mobile applications using Flutter and Dart, integrating payment gateways and push notifications; reduced development time by **30%** through reusable UI components and modular architecture.
- Collaborated with designers, backend engineers, and product teams in Agile sprints, contributing to feature planning, Figma-to-Flutter UI implementation, API integration, and code reviews using GitHub and Jira.

Software Developer Intern

Spin Info Solutions Private Limited

Mar 2024 – Aug 2024

Pondicherry, India

- Contributed to the development of production-ready Flutter applications by implementing new features, resolving critical bugs, and integrating REST APIs, improving application stability and supporting successful production releases.
- Collaborated with senior developers in Agile sprints to build reusable UI components, participate in code reviews, and optimize application performance, ensuring timely delivery of high-quality Android and iOS features.

PROJECTS

Tesseractiq

Technologies: Flutter, Figma, gRPC, GetX, GitHub

- Built a production-grade logistics platform using Flutter, Clean Architecture, gRPC, and GetX, supporting trip management and financial reconciliation.
- Implemented Offline-First Architecture with Hive for reliable local data persistence and seamless synchronization.
- Reduced deployment time by 40% through reusable UI components and CI/CD automation while delivering Android and iOS applications

EDUCATION

Sri Venkateshwara College of Engineering and Technology

Bachelor of Technology (B. Tech), Computer Science and Engineering

Sep 2019 - Aug 2023

CGPA - 8.5
